For use only by federal, state, tribal, or local government officials responsible for public health or vector control, or by persons certified in the appropriate category or otherwise authorized by the state or tribal lead pesticide regulatory agency to perform adult mosquito control applications, or by persons under their direct supervision.

**ACTIVE INGREDIENTS:**
- Permethrin: CAS [52645-53-1] ........................................... 30.0%
- Piperonyl Butoxide: CAS [51-03-6] ........................................... 30.0%
- OTHER INGREDIENTS ......................................................... 40.0%

**TOTAL:** 100.0%

*Contains Petroleum Distillate
Contains 2.5 lbs. a.i. Permethrin/gallon and 2.5 lbs. a.i. Piperonyl Butoxide/gallon.

**KEEP OUT OF REACH OF CHILDREN CAUTION**

Si usted no entienda la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

**FIRST AID**

- If Swallowed: Immediately call a Poison Control Center or doctor.
- If Inhaled: Call a poison control center or doctor or go to the emergency room.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give any mouth to an unconscious person.

**If on skin or clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

**Important:**
- Have this product container or label with you when calling a poison control center or doctor, or when going for treatment. You may also call 1-800-688-7378 for emergency medical treatment advice.

**Note to Physician:** Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed or absorbed through the skin, or inhaled. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Remove contaminated clothing and wash before reuse.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Some materials that are chemical-resistant to this product are nitrite and neoprene. If you want more options, follow the instructions for category E on an EPA chemical-resistance category selection chart. Mixers, applicators, and other handlers must wear: Long-sleeve shirt and long pants; shoes plus socks; chemical-resistant gloves for all handlers (except for applicators using motorized ground equipment, pilots, and flaggers); chemical-resistant apron for mixers/loaders, persons cleaning equipment, and persons exposed to the concentrate. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them. See engineering controls for additional requirements.

**USER SAFETY RECOMMENDATIONS:**

- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**ENGINEERING CONTROLS:**

Pilots must use an enclosed cockpit that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240(d)(6)). Human flagging is prohibited. Flagging to support aerial application is limited to use of the Global Positioning System (GPS) or mechanical flaggers.

**ENVIRONMENTAL HAZARDS**

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean water mark. Do not apply when weather conditions favor drift from treated areas. Do not apply to drainage to surface waters (primarily adsorbed to suspended soil particles), for several months or more after application. These include poorly drained or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, and areas overlying extremely shallow groundwater, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas overlying tile drainage systems that drain to surface waters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**WHEN TO APPLY**

**NOTE:** Do not apply when air temperature is below 50° F. Apply when wind speed is greater or equal to 1 MPH. Do not apply when wind speed is less than 100 ft., or by helicopter at a height less than 100 ft., or by aircraft at a height less than 75 ft. unless specifically approved by the state or tribe based on public health needs.

For proper ground application mount the fog applicator so that the nozzle is at least 4 1/2 ft. above ground level and directed out the back of the vehicle. May be applied at speeds of 5 MPH up to 20 MPH. Failure to follow these label directions may result in reduced effectiveness. For aerial application refer to the “Aerial Application” section on this label. AllPro Evolver is, or will be used directly as, or incorporated with a suitable solvent such as a 60 to 100 second viscosity mineral oil. For exact rates see the “UNDILUTED” or the “DILUTION” Rates charts on this label.

**HOW TO APPLY**

**GROUND BASED APPLICATIONS**

**GROUND ULV NON-THERMAL AEROSOL (COLD FOG) APPLICATIONS:** To control mosquitoes, midges and black flies apply AllPro Evolver 30-30 ULV using any standard ULV ground applicator. When applying this product undiluted apply at a flow rate of 0.32 to 2.19 ounces per minute at an average vehicle speed of 10 MPH. These rates are equivalent to 0.001 to 0.007 pounds per acre rate. May be applied at speeds of 5 MPH up to 20 MPH. Failure to follow these label directions may result in reduced effectiveness. For aerial application refer to the “Aerial Application” section on this label.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND SPILL PROCEDURES: Store upright at room temperatures. Do not expose to extreme temperatures. In case of spill or leakage, ventilate the area, wear chemical resistant gloves, and footwear. Retrieve and filter the liquid by some manner and use or dispose of as directed on this label, or "soak-up" the liquid with absorbent material such as sawdust, soil, fuller’s earth or, etc. Dispose of the resulting chemical waste as follows.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinseate that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility.

CONTAINER HANDLING:

NONREFILLABLE CONTAINER: Do not reuse or refill this container. Triple rinse or pressure rinse container promptly after use. Do not use or store filled containers or partial containers.

TRIPLE RINSE AS FOLLOWS - CONTAINERS 5 GALLONS OR LESS IN CAPACITY:

- Do not reuse or refill this container.
- Triple rinse or pressure rinse container promptly after use.

or a mix tank and drain for 10 seconds after the flow begins to drip. Fill container 1/4 full with mineral oil and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

CONTAINERS GREATER THAN 5 GALLONS IN CAPACITY: Empty the remaining contents and rinse container several times. Rinse the empty container in a holding container and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

TRIPLE RINSE AS FOLLOWS - CONTAINERS 5 GALLONS OR LESS IN CAPACITY:

- Do not reuse or refill this container.
- Triple rinse or pressure rinse container promptly after use.

or a mix tank and drain for 10 seconds after the flow begins to drip. Fill container 1/4 full with mineral oil and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

PRESSURE RINSE AS FOLLOWS: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinseate for later use or disposal. Insert pressure-rising nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

NOTICE: To the extent consistent with applicable law, buyer and user assume all risk and liability of use, storage and/or handling of this product not in accordance with the terms of this label.
